Team ID:	SWTID-2026-6274
Project Name:	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Date:	29-09-2026

Demonstration of Proposed Features

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

Feature Implementation Matrix

S.No	Feature Name	Description	Status	Demonstrated	Remarks
1	Service Catalog Item Configuration	Maintain Item setup for Standard Laptop with Process Engine link	Implemented	Yes	Fully functional
2	Flow Designer Automation	Automated creation of Catalog Task upon service request approval	Implemented	Yes	Active flow verified
3	Assignment Group Routing	Routing generated laptop tasks directly to the Hardware team	Implemented	Yes	Assigned correctly
4	Approval Workflow Integration	Manager approval triggering downstream task creation	Implemented	Yes	Tested end-to-end
5	Short Description & Field Mapping	Dynamic population of task descriptions ('Laptop need to Configured')	Implemented	Yes	Verified on SCTASK

Feature Implementation Summary

Metric	Value
Total Features Proposed	5
Total Features Implemented	5
Total Features Demonstrated	5
Overall Implementation Rate (%)	100%
