Team ID:	SWTID-2026-6274
Project Name:	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Date:	29-09-2026

Project Demo Planning

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

Demo Session Breakdown

S.No	Demo Section	Description	Duration	Member
1	Introduction	Overview of IT procurement challenges and project objectives	2 mins	Lead Presenter
2	Flow Designer Setup	Demonstrating ServiceNow Flow creation and catalog task configuration	3 mins	Workflow Engineer
3	Live Service Order	Placing standard laptop request from Service Catalog and triggering approval	3 mins	System Admin
4	Task Execution & Q&A	Reviewing generated SCTASK record, assignment group, and Q&A	2 mins	All Members

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Highlight manual overhead and delayed configurations in traditional IT procurement.
2	Solution Overview	Explain how ServiceNow Flow Designer automates standard laptop task routing.
3	Live Feature Demonstration	Walk through catalog ordering, manager approval, and hardware team task generation.
4	Q&A Session	Address evaluator questions regarding workflow logic and configuration parameters.
