CODE-LAYOUT, READABILITY AND REUSABILITY

SmartBridge Skill Wallet Evaluation

Date	29-09-2026
Team ID	SWTID-2026-6274
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Code-Layout, Readability and Reusability Overview:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized workflows with proper naming conventions, comments, and modular design ensure that the project is maintainable and extensible.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the configuration	Yes	Adheres to ServiceNow best practices
2	Proper File Structure	Files and folders / application scopes are logically organized	Yes	Global application scope cleanly structured
3	Meaningful Variable Names	Variables and action names reflect their purpose clearly	Yes	Clear naming for tasks and triggers
4	Function/Method Names	Flow actions and conditions are descriptively named	Yes	Standard Laptop task flow clearly documented
5	Code Comments	Inline notes and flow descriptions explain logic	Yes	Annotations added in flow descriptions

6	Modular Design	Workflows and subflows are split into reusable components	Yes	Modular catalog task actions
7	No Redundant Code	Duplicate or unused automations are removed	Yes	Removed legacy workflow defaults
8	Error Handling	Exceptions and error paths are handled gracefully	Yes	Default fallback conditions configured

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level
1	Standard Laptop Task Flow	ServiceNow Flow Designer	Service Catalog Item	High
2	Hardware Group Assignment Rule	ServiceNow Assignment Engine	Catalog Tasks	High
3	Approval Workflow Node	ServiceNow Core Spokes	Procurement Requests	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well-structured flow and catalog configuration
Readability	5	Clear action naming and descriptive short descriptions
Reusability	5	Flow can be reused across standard hardware orders

Documentation / Comments	5	Comprehensive activity descriptions and notes
Overall Score	5	Excellent implementation adhering to standards
