CODING & SOLUTION

SmartBridge Skill Wallet Evaluation

Date	29-09-2026
Team ID	SWTID-2026-6274
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Coding & Solution Overview:

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission demonstrates working functionality, clean configuration practices, and alignment with defined requirements.

Solution Summary

Field	Details
Repository Link / URL	https://github.com/sathaniya-m/Streamlining-IT-Procurement
Programming Language(s)	JavaScript, HTML, ServiceNow Flow Scripting
Framework(s) Used	ServiceNow Flow Designer & Service Catalog
Key Features Implemented	Automated catalog task generation, approval workflows, assignment group routing to Hardware.
Pending / Incomplete Features	None (All core requirements successfully implemented and tested)
Setup / Run Instructions	1. Open ServiceNow instance.2. Navigate to Flow Designer and import/activate 'Standard Laptop task' flow.3. Configure 'Standard Laptop' catalog item Process Engine to use the flow.4. Submit a test order from Service Catalog to verify automated task creation.

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into functions / classes	Yes
2	Meaningful variable and function names are used	Yes
3	Code includes comments / documentation where necessary	Yes
4	Error handling is implemented for critical operations	Yes
5	The application runs without critical errors	Yes
6	Code is committed to a version control repository	Yes
